# Why choose rigid vinyl flooring?

Looking for a renovation-friendly floor? Then rigid vinyl flooring is the solution for you. Installing a rigid vinyl floor on an existing surface is a breeze. It can be laid over existing floors, including uneven surfaces. So no need to spend time removing old flooring. But not every rigid vinyl floor is the same. That's where Alpha Vinyl comes in.

## What makes Alpha Vinyl so unique?

When you're living your best life, you want a floor that can withstand anything. Alpha Vinyl is expertly designed and produced by our team in Belgium, so you don't have to compromise on design or performance. Combining robust practical features with exquisite surface detailing, you'll have worry-free, high-performing, beautiful floors. What could be better?

Discover our three distinct features that will make you fall in love with Alpha Vinyl, your best choice for flooring.

### 1. UNRIVALLED BEAUTY

Looking at our Alpha Vinyl floors, you will struggle to believe it's not real wood or stone. Using our revolutionary technology our floors have a hyper-natural surface design, recreating a feeling of nature in your home. From walking in woodland to picking flowers in a forest, nature gives us the respite we need from our busy lives and inspires us when creating our designs.

## 2. WONDERFULLY SILENT

After a busy day you deserve to come home to peace and quiet. From kids running around, to clatters from mishaps in the kitchen, there's usually some sort of noise going on. Alpha Vinyl helps you to switch off. Our sound-reducing floors will give you the perfect sanctuary to unwind. Sound good?

AVMPU40318

## 3. INNOVATIVE WATERTIGHT TECHNOLOGY

In a home full of life, there's bound to be accidents but thanks to our watertight click-system, you can cope with spills. Water can't seep through the joints so your subfloor will stay completely dry. Our technology prevents dirt and damage to your subfloor that leads to an unhealthy indoor environment.

AVMPU40318

# Unrivalled beauty

Our revolutionary surface technology gives the most natural looking vinyl to date. Taking inspiration from nature, our Belgian floor designers are committed to searching for the perfect original piece of wood or stone to base their designs on. Not only will your floors look right on-trend but they're hard to tell apart from the real thing.

AVMPU40318

## Designs to inspire

We know you want to make your home look good so Alpha Vinyl's new collections are sure to inspire. Whether you like natural-looking wooden planks, bold tiles in playful colours or a carpet look, our Alpha Vinyl collection has the perfect floor for you.

## Extra matt surface

At home everyone should feel free to be themselves, from children playing and running around, fun at family get-togethers, to pets doing what they do. Our top-performing lacquer creates a beautiful matt effect. What's more, our flooring comes with excellent stain and scratch resistance. So you don't need to compromise on performance or beauty.

AVMPU40318

## True-to-nature design

The natural knots, woodgrain and stone indentations in your Alpha Vinyl floor are so authentic you'll have to look twice. Thanks to revolutionary technology, Alpha Vinyl has an authentic depth structure which makes its surface hyper-natural. Allowing all the performance you'd expect from vinyl together with our superior, detailed design.

AVMPU40318

# Wonderfully silent

With better soundproofing than traditional flooring, Alpha Vinyl is the ideal flooring for a home full of life. Engineered with multiple layers, you'll have the quiet and calm you deserve, away from the hustle and bustle of daily life.

Next to that, the innovative attached underlay will also reduce the sound towards neighbouring rooms. Sound good?

## Brilliantly quiet

Alpha Vinyl's unique soft layer (A) minimises everyday sounds like children running around and heels clacking on the way out to work.

Our attached underlay (B) is able to reduce impact noise to neighbouring rooms by up to 21 decibels, making the floor even quieter. And for those that live in an apartment, this means not disturbing the neighbours below when inviting guests around.

## There's more!

Not only does the underlay reduce sound, but thanks to our unique production process, the attached underlay fits seamlessly to the planks or tiles, so you don't have to worry about gaps. This ensures a perfectly supported click-system and improved sound dampening.

And did you know, our floors remain internally recyclable even with the attached underlay? So you can feel good about choosing flooring that commits to fully re-integrate production waste. See page 12-13 for more information on our commitment to sustainability.

AVMPU40318

## Innovative watertight technology

Spilled water on your floor? You don't need to worry about raised edges or swollen planks. All of Alpha Vinyl's components are 100% waterproof. Make your dreams a reality in your favourite rooms – even in challenging areas like the bathroom, kitchen, and hallway!

On top of that, our watertight Hydroseal technology, in combination with the Uniclic or Unizip system, fully closes the joints between your planks and tiles. This makes the floor surface entirely watertight and prevents dirt and bacteria from settling in the subfloor. Our engineered click-systems are designed for maximum ease of installation, it's simply click and go! To guarantee a super strong, watertight connection with speedy, user-friendly installation, our Uniclic and Unizip click-systems with interlocking tongue and groove offer the best technical performance on the market.

### /// QUICK·STEP®

Our Hydroseal technology, in combination with the Uniclic or Unizip system, fully closes the joints. Making the floor surface entirely watertight, and preventing dirt and water seeping through the joints, avoiding damage to your subfloor.

### COMPETITION

Weaker click-systems and no Hydroseal technology mean water and spills can get through the joints. This leads to dirt and damage to the subfloor.

## Unizip

Creating a herringbone pattern? Ordinarily, you'd need two different types of planks, A and B, which would mean slower and trickier installation. Not with Alpha Vinyl. Our herringbone floor has one ingenious type of plank that clicks on both sides, thanks to the Unizip system. You'll have a beautiful new herringbone floor in no time!

# Sustainability at the heart of your home

We all love natural beauty. The only way to continue to enjoy the beautiful things our planet has to offer is to treat it with respect. That's why our flooring products not only look good, but are as hard-wearing and sustainable as possible. Together, we can reduce our ecological footprint, from the production of your flooring to the end of its life.

## Clean indoor air

Most of your life takes place indoors, which is why the air quality in your home is so vitally important. Many factors have an effect on it: ventilation, candles, cleaning agents, and even the materials used in your interior, such as the flooring. That is why we minimise our emissions of harmful substances and have reduced them **lower than the European standard**. What's more, you don't

need any aggressive cleaning products to keep your vinyl flooring clean. All you need is lukewarm water and, if necessary, some Quick-Step Floor cleaner product.

The following labels demonstrate that your flooring complies with the strictest environmental and health standards:

The highest guarantee for the air quality in your home.

The proof that our flooring products do not release toxic substances and are odourless.

International building classification programme for low-emission products.

This SCS label shows that your flooring meets low-emission product requirements.

## Consciously selected materials

We manufacture your vinyl flooring in Belgium, in the heart of Europe. The raw materials come mainly from neighbouring countries. Vinyl flooring can contain up to 40% **chalk**, a material that is and will remain available in abundance. Another quarter of our vinyl is made from **recycled PVC** from our own production waste. Only one quarter is made from what is known as '**virgin**' or **new PVC**. The remaining ingredients – primarily **additives** – do not contain any harmful substances. The plasticizers we use to make your flooring flexible are the same as those used in children's toys and food packaging and are, therefore, **100% ortho-phthalate-free**.

## Green production

We take every opportunity to make our production processes greener. For this reason, we joined the **European Energy Efficiency Programme**, which aims to implement as many energy-saving measures as possible and monitors all efforts from day to day. Furthermore, 70% of the heat we use in our production unit is generated from wood residues and dust from our nearby lamination site. This helps us to save 25,000 tonnes of fossil CO<sub>2</sub> emissions per year.

## Circular ecosystem

We recycle 99% of our own industrial waste through our internal production process. This means we do not burn or dump materials unnecessarily, and we create our own circular ecosystem.

Scan the QR code  
to find out more about our  
commitment to sustainability.

# On top of the trends

SOFT TRANQUILLITY

AUTHENTIC NATURE

DARK WABI-SABI

You're all about style. We get that. That's why we continuously add new floors to our collection, following the latest trends in colours and patterns for our designs. For our Alpha Vinyl collection, we took inspiration from three trends that bring peace and tranquillity back to your home.

## SOFT TRANQUILLITY

Home. It's where you take a break, unwind, and retreat from the hectic outside world. Creating a harmonious setting to come home to isn't difficult at all. Light, neutral colours and tactile, hand-made materials are great ways to achieve tranquillity. A combination of soft textures and colours allows you to recharge and face the next day with renewed energy.

Soft tranquillity also concerns the minimalism found in Japandi, a stylish trend combining Japanese and Scandinavian interior design. Natural materials such as light oak with little knots and subtle colour contrast inspire the calm of nature. A beautiful example is our Botanical beige oak. Quiet, light neutrals like whites, simple but stylish light greys and natural elements combine well. Or try our Blos collection in light colours and go for that premium touch.

The only rule? Embrace simple, but avoid boring. Don't hesitate to go for a detailed but soft brushed surface. Alternatively, pick a warmer, sandy tone with a touch of pink, like the tones featured in our Coral stone tile.

**Other floors  
to inspire you**

CIRO

AVHBU40359

BLOOM

AVMPU40199

## AUTHENTIC NATURE

Long walks in the forest, gardening, staycations at home among the local flora and fauna... Connecting with nature has never been more important than it is today. Bring some of that natural harmony into your home by incorporating brown tones in your interior. Where black invites contrast, brown supports other colours and helps them shine. Adding touches of green and brown, like our Autumn oak chocolate or Cinnamon stone floors, will create a cosy yet luxurious atmosphere in your home.

Surrounding yourself with nature also means accepting the beauty of imperfection. No lines in nature are straight, and every tiny element is unique. You can find a lot of that authenticity in our floors – take, for example, the small splits, cracks and beautiful knots of our Botanical smoked oak. Ready to fill your cocoon with natural elements?

**Other floors  
to inspire you**

AVMPU40238

AVSTU40233

## DARK WABI-SABI

The ancient Japanese aesthetic movement of wabi-sabi teaches us to see beauty in imperfection. Wabi-sabi revolves around asymmetry, geometric forms, robust unfinished materials and sleek shapes: a unique combination for any interior. Colourwise, upgrade your favourite rooms with earthy tones and vibrant greens. Another important facet of this movement is the focus on objects that add character or tell a story. Finally, rough materials like concrete, stone and wood can really make your rooms stand out.

Combining wabi-sabi and darker colours turns your home into a warm, luxurious place. Rough concrete surfaces, such as our Volcanic stone tile, add a touch of imperfection, inspiring balance, peace and tranquillity. Black and dark blue add a touch of mystery and exclusiveness. Not ready to go completely dark? Easily contrast dark elements with white or lighter-coloured surfaces and objects.

# In which direction should

## Guided by the light

The direction of your floor has a huge impact on a room's overall appearance and can be a tough nut to crack. As a general rule, lay your floor in the same direction as the main light source in a room and in the same line as the most frequently used entrance. If there are several doors and windows, then opt for the direction that's the easiest to install.

AVMPU40236 - AVMTU40273

## In narrow rooms

Installing your floor in a narrow room? Why not lay it horizontally! Planks laid width wise will make the surface appear wider, avoiding a boxed-in effect. To enhance this even further, avoid dark colours for your floor or walls, as these will make a narrow room look even narrower.

AVMPU40099

# I install my floor?

## In short rooms

If you're laying your floor in a short room, you'll want to add a sense of depth. Make the room look longer by installing your floor lengthwise. Want to increase the effect of lengthwise installation? Make sure to combine a light-coloured floor with darker walls: this will add even more depth to your room.

AVMPU40201

## WORRY-FREE INSTALLATION

Found your dream floor? Our Uniclic and Unizip systems ensure a quick and easy installation, even when fitting in tight corners and under radiators. On top of that, all Quick-Step floors can be installed over traditional underfloor heating, and even on stairs! In addition, we offer all the accessories you need to install and finish your floor.

Check out our installation tips and  
videos at [quickstep.com](http://quickstep.com)

# Does size matter?

UNDOUBTEDLY YES!

ILLUME

**AVMTU40274**

A simple rule to follow is to use large format flooring for large rooms, which emphasises the spacious ambience. For small or irregular shaped rooms, a smaller format will better match the proportions of the room.

# The icing on the cake

## Matching skirtings

Go for a great look with Quick-Step's colour-matched skirtings for your floor.

### PERFECTLY MATCHING COLOURS

Our skirtings flawlessly match the colour of every floor.

### SCRATCH-RESISTANT TOP LAYER

Your skirtings are protected against the daily wear and tear.

### QUICK-STEP WARRANTY

Skirtings come with the same warranty as your floor.

AVMPU40315

---

## Paintable skirtings

Grab a can and paint your skirtings in a colour that suits your style, or simply leave them white. Do your skirtings need to withstand damp conditions, or do you want to be able to clean them with water? Make sure to choose waterproof skirtings.

AVMPU40315

AVMPU40315

## Go for the perfect finish with Stair Covers

Thinking of giving your stairs a makeover? Alpha Vinyl is ideal for staircases. With our durable Vinyl Stair Covers, you'll get the job done in no time. They can also be matched to the design of your floor. They're scratch and wear resistant, watertight, simple to clean and easily installed. Without a doubt, the most efficient way to renovate. Vinyl Stair Covers are available only with our Bloom, Blos and Ciro collections.

# ACCESSORIES

DISCOVER OUR FULL  
RANGE OF ACCESSORIES

## INSTALLATION

### UNDERLAYS

Our separate underlays can be used only in combination with Blos base and Oro base floors (other collections come with underlay attached). Besides creating a level foundation, our underlays provide excellent acoustic insulation. On top of that, our underlays are compatible with traditional underfloor heating or cooling systems. Combine Blos base and Oro base with one of the underlay types below, choosing according to your specific needs.

#### Comfort

**QSVUDLCOMFORT15**

Thickness: 1.15 mm - Roll: 15 m<sup>2</sup>

This all-round underlay helps you level the existing subfloor. Comfort suits any room and is a sustainable choice because it's made of recycled PET flakes. Suitable with underfloor heating and cooling.

#### Heat

**QSVUDLHEAT10**

Thickness: 1.55 mm - Roll: 10 m<sup>2</sup>

The recommended underlay for rooms that get lots of direct sunlight, and rooms with underfloor heating or cooling. Our Heat underlay also offers the best in-room noise reduction. Moreover, it guarantees the best lifetime performance for your floor: over time it keeps performing at its best in terms of acoustics and support.

#### Transit

**QSVUDLTRANSIT15**

Thickness: 1.20 mm - Roll: 15 m<sup>2</sup>

Offering the best noise reduction toward neighbouring rooms, this underlay is ideal for first floors and apartments. Transit is a sustainable choice because it's mainly made of recycled PET flakes. Suitable with underfloor heating and cooling.

 Our Heat underlay is composed of sustainable raw materials, including plant-based oils and mineral components such as chalk. The Comfort and Transit underlays are made from recycled PET flakes.

### INSTALLATION TOOLS

#### Installation set

**QSTOOLA**

Set with a tapping block to easily click planks together, a cramp iron for hard-to-reach places and spacers to provide perfect expansion joints (8 mm) between walls and floor.

#### Vinyl installation tool

**QSVTOOL**

Cramp iron to easily cut planks to size and get to hard-to-reach places.

#### Vinyl knife

**QSVKNIFEB / NEVKNIFEREFILL40**

Incl. 5 blades

Knife for precise and stable cutting, including curves and shapes. A refill pack contains 40 blades.

## FINISHING

### COLOUR-MATCHED SKIRTINGS

#### Why choose Quick-Step colour-matched skirtings and profiles?

##### PERFECTLY MATCHING COLOURS

Our skirtings and profiles flawlessly match the colour of every floor.

##### SCRATCH-RESISTANT TOP LAYER

Skirtings and profiles are protected against everyday wear and tear.

##### QUICK-STEP WARRANTY

Skirtings come with the same warranty as your floor.

**Scotia**

**QSVSCOT(-)**

2400 x 17 x 17 mm

A discrete finish that matches the colour of your floor. Easy to install with One4All Glue. Use the Foamstrip and Hydrokit to obtain a watertight finish.

Also available in a white, paintable version (QSSCOTPAINT).

**Standard skirting**

**QSVSK(-)**

2400 x 12 x 58 mm

Standard skirtings that match the colour of your floor. Use the included plugs to connect skirtings, even in corners. The included plugs are available separately too (NEPLUG). Easy to install with One4All Glue. Use the Foamstrip and Hydrokit to obtain a watertight finish. Also available in a white, paintable version (QSSKPAINT).

### PAINTABLE SKIRTINGS

**Paintable scotia**

**QSSCOTPAINT**

2400 x 17 x 17 mm

Paintable scotia that can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

**Paintable standard skirting**

**QSSKPAINT**

2400 x 12 x 58 mm

Paintable skirting that can be left white as well. Use the included plugs to connect skirtings, even in corners. The included plugs are available separately too (NEPLUG). Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

**Paintable parquet skirting**

**QSPSKRPAINT**

2400 x 14 x 77 mm

Paintable skirting with space to hide cables. Use NEPLUG plugs (not included) to connect skirtings, even in corners. Easy to install with One4All Glue or Track. Not suitable for damp rooms - check out our range of waterproof skirtings.

**Paintable cover skirting**  
**QSISKRCOVER**  
2400 x 16 x 129 mm

Paintable skirting to put over an existing one - ideal for renovations. Adjustable to 4 heights between 68 and 129 mm. Can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

**Paintable ovolو skirting**  
**QSISKRWHITE**  
2400 x 16 x 160 mm

Paintable skirting that can be used in two shapes for more decorative freedom. Adjustable to 5 heights between 25 and 134 mm - use the supplied Incizo knife. Can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

SHAPE 1

SHAPE 2

**Paintable ogee skirting**  
**QSISKROGEE**  
2400 x 16 x 160 mm

Paintable skirting that can be used in two shapes to add a specific character to your interior. Adjustable to 4 heights between 20 and 140 mm - use the supplied Incizo knife. Can be left white as well. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

SHAPE 1

SHAPE 2

**Paintable small skirting**  
**QSPSKR4PAINT**  
2400 x 14 x 40 mm

Paintable skirting that can be left white as well. Also available in a flexible version (QSFLEXSKR) to finish your entire space in the same style. Easy to install with One4All Glue. Not suitable for damp rooms - check out our range of waterproof skirtings.

## WATERPROOF PAINTABLE SKIRTINGS

---

### Paintable waterproof scotia

**QSHSCOT19PAINT**

2400 x 19 x 19 mm

Paintable, 100%-recyclable polystyrene scotia that can be left white as well. Use the Foamstrip and Hydrokit for a watertight finish in damp rooms. Easy to install with One4All Glue.

### Paintable waterproof skirting - small

**QSHSK38PAINT**

2400 x 13 x 38 mm

Small, paintable, 100%-recyclable polystyrene skirting that can be left white as well. Use the Foamstrip and Hydrokit for a watertight finish in damp rooms. Easy to install with One4All Glue.

### Paintable waterproof skirting - medium

**QSHSK58PAINT**

2400 x 13 x 58 mm

Medium, paintable, 100%-recyclable polystyrene skirting that can be left white as well. Use the Foamstrip and Hydrokit for a watertight finish in damp rooms. Easy to install with One4All Glue.

### Paintable waterproof skirting - large

**QSHSK80PAINT**

2400 x 15 x 80 mm

Large, paintable, 100%-recyclable polystyrene skirting that can be left white as well. Use the Foamstrip and Hydrokit for a watertight finish in damp rooms. Easy to install with One4All Glue.

### Paintable waterproof flexible skirting

**QSFLEXSKR**

14 x 40 mm

Flexible, paintable skirting made of foamed PVC that can be cut to your desired length. Ideal to finish pillars or curved walls. Use the Foamstrip and Hydrokit for a watertight finish in damp rooms. Easy to install with contact glue.

## INSTALLATION TOOLS FOR SKIRTINGS

---

### One4All Glue

**QSGLUE290**

290 ml

Multi-purpose glue that ensures adhesion on all materials and substrates.

Average usage: 1 tube for 15 m of skirtings.

### Plugs

**NEPLUG**

Connection pieces for standard skirting and parquet skirting. One package contains 24 connections for inside and outside corners + 24 connections for straight stretches.

## COLOUR-MATCHED PROFILES

**Incizo profile**  
**QSVINCP(-)**  
2000 x 45 x 8 mm

Multifunctional finishing tool to finish your floor and stairs in matching colours. Simply cut the Incizo basic profile to the desired shape with the supplied Incizo knife. Use the Foamstrip and Hydrokit for a watertight finish. Patent pending.  
Contains 1 Incizo profile, 1 Incizo knife and 1 plastic rail.

APPLICATION 1  
Connect two floors of different heights.

APPLICATION 2  
Connect two floors of the same height.

APPLICATION 3  
Finish your floor along walls or windows.  
Cut in half to cover twice the distance with one profile.

APPLICATION 4  
Create a nice transition between your Alpha Vinyl floor and other flooring types or finish along sliding windows.

**Incizo profile / Incizo aluminium subprofile for stairs**  
**QSVINCP(-) / NEVINCPBASE1**  
2000 x 45 x 8 mm /  
2000 x 33 x 17 mm

The Incizo profile also allows you to finish your stairs and steps in the flooring design of your choice. For this application, you need the Incizo profile and an aluminium subprofile. Subprofile to be ordered separately.

APPLICATION 5  
Finish your stairs and steps.

## ALUMINIUM FINISHING PROFILES

silver

coffee

clay

champagne

**Vinyl expansion profile**  
NEVEXP SILV / NEVEXP COFF  
NEVEXP CLAY / NEVEXP CHAM  
2000 x 34 x 7 mm

To connect two floors of the same height.  
Available in silver, coffee, clay and champagne.

**Vinyl adapter profile**  
NEVADP SILV / NEVADP COFF  
NEVADP CLAY / NEVADP CHAM  
2000 x 38 x 7 mm

To connect two floors of a different height. Available in silver, coffee, clay and champagne.

**Vinyl end profile**  
NEVENP SILV / NEVENP COFF  
NEVENP CLAY / NEVENP CHAM  
2000 x 24 x 7 mm

To finish your floor along walls, windows or carpets. Available in silver, coffee, clay and champagne.

**Multifunctional profile**  
QSPRSILV  
1860 x 47 x 16 mm

To connect two floors of the same height or with a height difference of up to 12.3 mm.  
Available in silver.

## STAIR COVERS

---

### Vinyl Stair Cover - Bullnose

**QSVSTRBMP(-)**

1474 x 136 x 54 mm

**QSVSTRBSP(-)**

1231 x 116 x 54 mm

Durable vinyl tread cover with a bullnose stair nosing to cleanly finish your stairs. Since Stair Covers are made out of your floor's material, the colour matches 100%. Easy glued-down installation.

Vinyl Stair Covers are available only with our Bloom, Blos and Ciro collections.

## FINISHING TOOLS

---

### Colour-matched kit

**QSKIT(-)**

310 ml

This elastic, acrylic-based paste is the ideal solution to fill joints between skirtings and walls. Available in matching colours. Average usage: 1 tube for 15 m.

### Pipe covers

**QSRCINOX18 / QSRCINOX22**

2 pcs/pack

Stainless steel covers to nicely finish pipes and heating elements. Available in inside diameter sizes 18 and 22 mm. Do not glue the covers to the floor, but install them floating.

## TOOLS FOR A WATERTIGHT FINISH

Give your floor a watertight finish using our Foamstrip and Hydrokit to get your water-resistance warranty. Follow the installation instructions and consult the warranty conditions for more details.

**Foamstrip**  
**NEVRFOAMSTRIP15**  
15 m x 8 mm x 5 mm

Fill up expansion joints with the Foamstrip and combine with the Hydrokit for a watertight finish of your floor. Invisible installation under skirtings, profiles etc.

**Hydrokit**  
**QSKITTRANSP**  
310 ml

Transparent silicone to combine with the Foamstrip for a watertight finish of your floor. Invisible installation under skirtings, profiles, etc. Average use: 1 tube for 15 m.

STEP 1

### Install your Alpha Vinyl floor

Provide an 8 mm expansion joint between walls and floor.

STEP 3

### Add Hydrokit

Apply the Hydrokit on top of the Foamstrip.

STEP 2  
**Add Foamstrip**

Install a Foamstrip between the wall and your floor.

STEP 4  
**Install your colour-matched skirting**

## MAINTENANCE

---

**Floor cleaner 2 L**
